

By giving to the arts, the essence of civilization is preserved, both for today and for years to come. It's thrilling to know that people will share a gift to the arts in a future that can't yet even be imagined. Art is part of who we are and also helps to define what we are.

Most important of all you are enabling families and everyone in the community to enjoy art and creativity free of charge. Arts and culture are essential to creating strong communities, enriched lives, and a deeper understanding and appreciation of diversity and community.
